

# AVL Series

## Professional Vocal/Instrument Microphones

A series of professional handheld dynamic microphone design for a wide variety of vocal and sound reinforcement application. Hypercardioid polar pattern provides better performer sound isolation and effective feedback rejection. A durable Zinc die-cast construction built to endure the rigors of tours and live performances. It all comes in a suedex gray non-slip finished. An efficient internal shockmount system eliminates virtually all handling and cable noise, while multi-stage integral breath shield effectively reduces wind noise and speech produced "popping sounds" when performers works extremely close. It also incorporates a built-in ON/OFF switch for convenient control of the microphone.

### AVL2600

#### Stage/Speech Microphone

- Elements : Moving Coil Dynamic
- Polar Pattern : Cardioid
- Frequency : 60-16,000 Hz
- Sensitivity : -72dB  $\pm$  3 dB  
(0dB-1ubar @1KHz)
- Impedance : 250  $\Omega$   $\pm$  30% (@ 1KHz)
- Switch : Sliding type (On/Off)
- Connector : XLR (male)
- Dimension :  $\phi$ 52x186.4mm (AVL2500 & AVL2520)  
 $\phi$ 52x177.5mm (AVL2600)  
 $\phi$ 53 x187mm (AVL107)
