Active Speaker – Verve Series

Verve 8MA

150W + 50W - 117 dB SPL Coaxial Active Monitor Speaker Systems

Features:

- > 2-way, bass-reflex, bi-amplified speaker system
- > 1 x 8" (2" VC) B&C® woofer
- > 1 x 1" exit (1.4" VC) B&C® coaxial mount compression driver
- > 100°H x 100°V constant directivity horn
- > 150W rms Class G woofer amplifier
- > 50W rms Class AB (HF) driver amplifier
- > Advanced protection circuits with dynamic equalization of the low frequencies and limiter
- > High S/N ratio, 24dB/oct active filters for the preamp section
- > Control panel with: ground-Lift, XLR input and output, limiter and protection LEDs, volume control
- > 11-layer birch plywood scratch resistant enclosure (15mm / 0.59"). 45° monitor taper
- > 4 x M6 omni-mount rigging points
- > Specifically designed frequency response for nearfield use as monitor
- > Exceptional coherent sound diffusion over the entire dispersion angle without lobbing normally associated with conventional two-way enclosures
